

Preschool Behaviour Education

As educators working in the Preschool we believe:

- All children have the right to feel secure and to learn and develop in a psychological and physically safe environment.
- Children have a right to express their feelings and to be supported to develop positive behaviours that underpin the development of relationships with peers and adults.
- Effective communication and learning occurs when families and educators work together to develop common goals for a child's wellbeing, learning and development.
- That consideration of children's individual and contextual needs are crucial to successful learning and the development of positive behaviours.
- That family consultation is valued and their individual perspectives respected.
- Children have the right to be supported by educators who model appropriate behaviours and language and ensure consistent limits are set.
- No child should be made to feel rejected, insecure, embarrassed or ashamed.

As a team of educators we promote positive behaviour and interactions by:

- Planning for and providing an environment that promotes a sense of belonging, being and becoming and provides enhanced opportunities for learning through play.
- Explicitly teaching the Child Protection Curriculum.
- Ensuring that limits set are reasonable and understood by all children and adults.
- Providing an enriching and engaging program that enables each child to experience success, a sense of wellbeing and gives opportunities to express feelings through sensory and other forms of play.
- Using positive verbal and non verbal guidance.
- Demonstrate empathy and sensitivity to each child being mindful of the variety of factors that influence behaviour.
- Planning enabling opportunities for the development of skills including resilience, entry and exit skills when playing, appropriate risk taking, conflict resolution, independence, leadership, respect for others and communication.
- Interacting positively using positive language and modelling respectful behaviour.
- Valuing children as individuals within their family and cultural context.
- Involving children in goal setting, developing group norms and the development of behavioural expectations and consequences.
- Intentional teaching of appropriate behaviours and play skills, building on each child's strengths and achievements and providing choices when possible.
- Promote self regulation of behaviours.
- Being consistent and predictable in our responses to children.

As a team of educators we will respond to challenging behaviours by:

- Reminding children of their responsibilities as children in the Preschool.
- Supporting children to problem solve, negotiate, find solutions and manage emotions appropriately.
- Using restorative justice practices that support children to empathise with others and restore relationships.
- Communicating with and involving families at the earliest opportunity to work together positively to assist the child's wellbeing and learning.
- Assessing individual children's learning and development and reflecting on and reviewing our planned program and how the active learning environment supports positive behaviours.
- Planning, implementing, monitoring and reviewing individual behaviour plans in partnership with families and support services where necessary.
